CV:

Zahar Bondar was born in 1992 in Daugavpils, Latvia to two circus artists. His art practice is strongly process-oriented and emphasises concepts of balance and precarity, engaging with topics revolving around bodily movement, the performative use of objects and space, and the dialogue between these. His latest projects deal with the re-elaboration of historical events to offer alternative readings of the past, while simultaneously offering perspectives on both the present and the future.

email: voobzem@gmail.com

Education:
