Zahar Bondar was born in 1992 in Daugavpils, Latvia to two circus artists.

His art practice is simultaneously process and result-oriented, just think of a rope walker which is focused on the end point while also fully concentrated on the moment itself. And just like a rope walker, Bondar emphasises concepts of balance and precarity, engaging with bodily movement, voice, the performative use of objects and space, and the dialogue between these.

**upcoming** currently working on a book "*Soups and Tiles*" which will be co-published by Vleeshal, Middelburg and Page Not Found, The Hague in June 2026
